

INDULGENCE MATT EMULSION

Indulgence Matt emulsion for interior walls and ceilings. At B&Q we want you to be satisfied with your colour selection. Not all monitors will display colours the same and paint tins may not show the same colour as your walls do in natural light. We therefore recommend you order a tester pot online or pop in store to pick one up so you are sure that this is the right colour for you. Control air pollutants by choosing products with lower solvent levels

Brand	Crown
Range	Indulgence
Location	Interior
Application	Brush or roller
Litre capacity (L)	2.5L
Surface finish	Matt
Coverage	Up to 14 m ² per litre
Drying time	4 hours
Touch dry time	2-4 hours
Recoat time	4 hours
Paint/Stain/Varnish base	Water-based
VOC description	Low
Recommended for	Ceilings & walls

PREPARATION

New Surfaces

All surfaces must be sound, clean, suitably dry and free from anything that will interfere with the adhesion of the materials to be applied. Powdery, polished plaster or dense surfaces should be primed with Crown Trade Alkali Resisting Sealer. Porous surfaces should be 'mist' coated with Crown Matt Emulsion Breatheasy® thinned with up to 40% clean water.

Previously decorated surfaces

All surfaces must be sound, clean, suitably dry and free from anything that will interfere with the adhesion of the materials to be applied e.g. dirt, grease etc. Remove all loose, failing or suspect paint. Feather edges of sound paint. Remove all dust. Organic growth must be removed and the areas treated with Crown Trade Fungicidal Solution. Fill any fixing holes, cracks and shallow surface defects using a suitable proprietary interior filler. Patch prime bare and filled areas with Crown Matt Emulsion Breatheasy®. Wash remaining sound paint with hot water and liquid detergent solution to remove any contaminants, frequently changing the water. Any glossy or eggshell surfaces should be wet abraded to provide a key. Rinse with clean water to remove all residues. Allow to dry. If after cleaning any areas still contaminated with substances likely to cause staining and/or bleeding, patch prime with one coat of Crown Stain Block Primer. Bring forward patch primed areas with one coat of Crown Matt Emulsion Breatheasy®.

COATING SYSTEM

Apply two full coats of Crown Matt Emulsion Indulgence

APPLICATION

Stir well before use. Apply unthinned using a good quality paint brush or medium pile roller. Apply liberally. Do not exceed the recommended spreading rate.

CLEANING

Return surplus material to container. Wash with clean water immediately after use.

HEALTH AND SAFETY

Please refer to the Safety, Health and Environmental Information on the container. Take special precautions during the surface preparation of pre 1960's painted surfaces as they may contain harmful lead. For further information contact the Crown Customer Relations Team. When preparing all surfaces avoid the inhalation of dust and/or metal particles. Wear a suitable facemask. Material Safety Data Sheets for this and all other Crown Paints products are freely available from the place of purchase or the address below. Store in secure dry conditions inaccessible to children or animals. Containers should be kept closed during storage. Do not empty into drains, watercourses or access routes to septic tanks.
