

# TECHNICAL DATA SHEET

## KITCHEN AND BATHROOM SATIN EMULSION BREATHEASY®

This emulsion paint is suitable for interior and covers up to 14 m<sup>2</sup> per litre on average.

- \* 1 year Guarantee
- \* Durability:Excellent durability

### AVAILABILITY

Colour Range 39 colours plus Pure Brilliant White

Packaging 2.5L

### PROPERTIES

Drying Time Under normal drying conditions touch dry in 2 hours, recoatable after 4 hours. Allow for adequate ventilation during the drying period.

Finish Satin

Composition Solvent: Water.

Spreading Rate 14m<sup>2</sup> per litre on smooth surfaces.

Flash Point Not applicable.

VOC Content Minimal

### PREPARATION

**New Surfaces** All surfaces must be sound, clean, suitably dry and free from anything that will interfere with the adhesion of the materials to be applied. Powdery, polished plaster or dense surfaces should be primed with Crown Trade Alkali Resisting Sealer. Porous surfaces should be 'mist' coated with Crown Kitchen and Bathroom Satin Emulsion Breatheasy® thinned with up to 40% clean water.

**Previously decorated surfaces** All surfaces must be sound, clean, suitably dry and free from anything that will interfere with the adhesion of the materials to be applied e.g. dirt, grease etc. Remove all loose, failing or suspect paint. Feather edges of sound paint. Remove all dust. Organic growth must be removed and the areas treated with Crown Trade Fungicidal Solution. Fill any fixing holes, cracks and shallow surface defects using a suitable proprietary interior filler. Patch prime bare and filled areas with Crown Kitchen and Bathroom Satin Emulsion Breatheasy®. Wash remaining sound paint with hot water and liquid detergent solution to remove any contaminants, frequently changing the water. Any glossy or eggshell surfaces should be wet abraded to provide a key. Rinse with clean water to remove all residues. Allow to dry. If after cleaning any areas still contaminated with substances likely to cause staining and/or bleeding, patch prime with one coat of Crown Stain Block Primer. Bring forward patch primed areas with one coat of Crown Kitchen and Bathroom Satin Emulsion Breatheasy®.

**COATING SYSTEM**

Apply two full coats of Crown Kitchen and Bathroom Satin Emulsion Breatheasy®.

**APPLICATION**

Stir well before use. Apply unthinned using a good quality paint brush or medium pile roller. Apply liberally. Do not exceed the recommended spreading rate.

**CLEANING**

Return surplus material to container. Wash with clean water immediately after use.

**HEALTH AND SAFETY**

Please refer to the Safety, Health and Environmental Information on the container. Take special precautions during the surface preparation of pre 1960's painted surfaces as they may contain harmful lead. For further information contact the Crown Customer Relations Team. When preparing all surfaces avoid the inhalation of dust and/or metal particles. Wear a suitable facemask. Material Safety Data Sheets for this and all other Crown Paints products are freely available from the place of purchase or the address below. Store in secure dry conditions inaccessible to children or animals. Containers should be kept closed during storage. Do not empty into drains, watercourses or access routes to septic tanks.
